Due to my military duty I've had two operations on my right foot and operations for a meniscus tear and left knee ACL repair. I've tried multiple shoe manufactures and styles and even had to utilize customized inserts with little to no luck. I received a pair of the Drew Trek boots over a year ago and loved them so much I already got two new pair. Amazing shoes, comfortable with zero pain in my feet and knees and without any custom inserts. Please continue to produce these amazing shoes for all of us who suffer from chronic pain in their feet and knees.
